GRADUATE COLLEGE PETITION FOR EXTENSION OF TIME LIMIT FOR DOCTORAL DEGREE

If you are an Ed.D. or Ph.D. student who was admitted to a doctoral program with an earned master's degree, you have eight years to complete all requirements for the doctoral degree. The eight years begins with your first semester of doctoral study at NAU. If you started a doctoral program with a bachelor's degree, you have ten years to complete all requirements for the doctoral degree.

If you do not complete the degree in eight years, you may petition the Graduate College for one extension of this time limit.
