

# Internship Available Now For a New Kind of Nonprofit

---

## VISUAL COMMUNICATION MAJORS/ 3 CREDITS/10 HOURS

New Media for Global Change Inc. is looking for a knowledgeable Visual Communications major to help the design and first launch of its main website. Skills needed are website designing, slideshow coordination/interactive multi-media, creative thinking, and a general understanding of Dreamweaver CS4.

This internship is for those who seek a challenge; for those who are trying to find real life experience and for those who find it necessary to apply their education and talents within their field *before* they graduate. *Why is this kind of experience important for students?*

**Because it'll better prepare you for the future.** If you're looking to be your own entrepreneur after college or anticipating working with small to large companies – this experience is what'll mold you, build your skills and hone your ability to work independently under deadline. It'll sharpen your designing instincts and give you the opportunity to apply yourself with all that you've learned in school.

Here's a little bit about New Media for Global Change Inc: This is a new non-profit corporation spearheaded and independently run by yours truly, a recent NAU graduate in the school of communications.

NMGC INC.'S MISSION: "TO REROUTE TODAY'S TECHNOLOGIES OF THE INTERNET WORLD WITH EXPERT DESIGNS THAT WILL HELP FINANCIALLY AID AND ENCOURAGE THE PROGRESS OF NPOS AROUND THE WORLD, TO HELP RAISE THEM INTO SOCIETY'S CHANGING MEDIUMS AND FOSTER MORE PERSONAL COMMUNICATIONS WITHIN THE PUBLIC SPHERE TO RAISE AWARENESS AND COMMUNITY INVOLVEMENT."

Basically, this company seeks to become a leading portal of fundraising and public community involvement via the Internet, by giving fellow Flagstaff nonprofit organizations a platform for news, media and public support. As you can see, this work would not only help a new non-profit get itself off the ground, but it would also affect the progress of other nonprofit organizations here in Flagstaff as well.

You'd be able to work on your own time, in the computer lab or on your own computer. I'm willing to coordinate with you, to help meet your needs. As long as you can keep an open mind, let's see what we can do together.

If you're interested, please contact your advisor or the School of Communication Internship Director, Mary Tolan: [Mary.Tolan@nau.edu](mailto:Mary.Tolan@nau.edu) or email me at [Stephanie.flood@newmediaforglobalchange.com](mailto:Stephanie.flood@newmediaforglobalchange.com) for questions.
