## Summer Internship Program

**Real** work. **Real** time. **Real** opportunity.

### McMurry myturnship Program

McMurry, the largest marketing communications company in Arizona and the 13th largest independent marketing communications company in the U.S., has established the preeminent marketing communications internship program in the state—**myturnship**—a program that takes Arizona's best marketing communications students and provides them with valuable real-world experiences in their chosen areas of professional endeavor.

**Students will work on real projects, attend client meetings, present at corporate meetings, attend professional development classes, produce quality portfolio work, and will be held to the same high level of excellence, dedication and work ethic as full-time McMurry staff members.**

It will be **intense**. It will be **fun**. It will be **highly beneficial** for those students chosen to participate in the **myturnship** program.

McMurry will work with top universities and colleges in Arizona to identify students best fit for the available positions. Students will be required to participate in the interview process for the internship program. Preference will be given to those students able to work 30-40 hours per workweek and who possess a sincere interest in pursuing a career in marketing communications.

Pay will be \$10/hour, and college credit will be offered.

Intern positions available for the summer 2009 semester are as follows (subject to change):

- Editorial (publications)
- Graphic Design
- Web Design
- Information Technology

Each **myturnship** participant will have a **mymentor**, a coach within McMurry who will oversee each participant's involvement and performance as an intern. The **mymentors** will perform a formal evaluation for each intern.

Application Deadline: January 23, 2009

Start Date: May 18, 2009

End Date: August 7, 2009
