

VIDEO PRODUCTION INTERNSHIPS AVAILABLE FOR 2008-2009

Since 1984, VAS Communications in Phoenix, Arizona, has proudly hosted Arizona television production students for one-semester video internships.

VAS (www.vascommunications.com) is a full-service media and public relations agency specializing in biomedical communications and marketing.

Primary intern responsibilities include production assistance on field and studio shoots and apprentice editing on digital post production systems. As the intern gains experience at VAS they are often called upon to perform other tasks such as solo field shoots, on-line editing and scripting. We encourage interns to develop a demo reel during their tenure to assist them in obtaining employment upon their graduation.

The intern is paid a monthly stipend and is required to work 40 hours a week with some weekend and evening assignments. Over 95% of our previous 30-plus NAU interns have procured production employment upon receiving their communications degree.

For more information call Chris Wooley at (602) 240-6124.
