Thesis Proposal/ Research Paper Practicum – Dr. R.D. Hawley

(1-la. 2-3 pages)

I. Intro - 1 paragraph to 1 page of context. Set the stage for the research question.
   a. (Problem Statement – general statement of problem to be researched.
      i. Research question – specific problem or question to be answered.
      ii. Objectives or hypothesis (hypothesis if stat tests)

(b-d 2-3 pages including map)

   b. Study Site
   c. Scope – parameters of research.
   d. Justification – why the research is important, how it solves problems, fills in holes in literature.

(3-4 pages)

II. Literature Review – brief literature review that sets the stage – show knowledge of what has been done (pro, con) methods used.

(2-3 pages)

III. Methodology – proposed methodology, explain data to be used, collection, analysis methods (can use literature to back this up!)

(1-2 pages)

IV. Proposed Chapters and Timeline – explain title proposed chapters and general content, timeline (realistic!) for completion.

Applied Research Practicum Report Proposal – Dr. R.D. Hawley

(1-la. 2-3 pages)

I. Intro - 1 paragraph to 1 page of context. Set the stage for the research question.
   a. (Problem Statement – general statement of problem to be researched.
      i. Research question – specific problem or question to be answered.
      ii. Objectives or hypothesis (hypothesis if stat tests)

(b-d 2-3 pages including map)

   b. Study Site
   c. Project Scope – parameters of project.
   d. Justification – why the research is important, how it solves problems, fills in holes in agency and real world.

(2-4 pages)

II. Literature Review – brief literature review that sets the stage – show knowledge of what has been done (pro, con) methods used. This will likely include applied case studies or previous efforts to solve the same or similar issues.

(3-4 pages)

III. Methodology – proposed methodology, explain data to be used, collection, analysis methods (can use literature to back this up!) and what agencies are involved. Brief discussion of steps to locate/create data, software/hardware to be used.

(1-2 pages)

IV. Proposed Chapters and Timeline – explain title proposed chapters and general content, timeline (realistic!) for completion.
